

Mary Beth Glisson
Controller
New Level Group

Mary Beth provides financial expertise organizations need in order to be successful. During the past 20 years, her experience has included positions as controller for Globe Slicing Machine, Westport Supply Company and Hughes Design in Connecticut, and Nova Group, Verio, and most recently, MKF Group, a wine business advisory firm, in California.

Mary Beth's areas of expertise include the preparation of accurate and timely financial reports, budget preparation, and cash flow analysis. She is also well-versed in payroll processing, including the related forms and filings, and the set-up of accounting systems and back office procedures. She has experience with various accounting software applications, including Peachtree, Mas90, QuickBooks, GoSystems, and BNA. Her software expertise extends to the Microsoft Office Suite of products including Excel, Word, Access, PowerPoint and Publisher.

Mary Beth's goal is to help NewLevel Group's clients understand their financial needs, and develop and implement processes that will give them the financial information they need to operate a successful business.
